

BTL services expand to include COBRA management

ANOTHER SOLUTION. MORE SAVINGS.

Benefit Tax Link is proud to announce that we have added comprehensive COBRA management to the list of our current benefit services.

The IRS can impose fines up to \$100 a day per beneficiary for COBRA violations and the rules are continually changing. Benefit Tax Link has the knowledge and experience to lead your company through the maze of COBRA regulations and notifications. With a keen understanding of the complexities of the law, we can easily shoulder the responsibility of COBRA management in order to ensure your constant compliance. This is timely in light of the government mandated subsidy that began February 17, 2009.

Compliance is the key to savings!

Benefit Tax Link offers a scope of COBRA services, all of which are designed to place the responsibility of COBRA administration on us, and allow your HR personnel to focus on tasks that impact your bottom line.

Our services include:

- Initial notice of COBRA rights and obligations
- Specific event qualifying notices including the required subsidy notice
- Premium collections, including credit card payments
- HIPAA certificates
- Track all dates for proper compliance
- Produce and mail conversion and termination notices
- Maintain all documentation
- Monitor changes in COBRA law and procedures
- Manage state mandated COBRA laws

Call or email Benefit Tax Link to find out how we can manage your COBRA administration.
